Objectives

- To provide NMRCD users and collaborators with a powerful tool to review the list of books and magazines on the NMRCD library and their current availability.

Background

NMRCD library currently have available 02 sets of collections on the on-line library:

- NL – NAMRID library serials
Journals collection on NMRCD library
- SL – Naval Medical Research Center Detachment
Any other material on the NMRCD library

The physical library is located on the NMRCD building 1:

Ave. Venezuela - block 36, Bellavista – Callao. Peruvian Navy Hospital.

For information, please contact:

Zoila Pretell
Phone: (51-1) 562-3848 ext. 141
Fax: (51-1) 561-3042
E-mail: zpretell@nmrcd.med.navy.mil

Accessing the on-line library

The URL for the NMRCD on-line library information is:

<http://www.nmrcd.med.navy.mil/library>

NMRCD On-line library User Manual

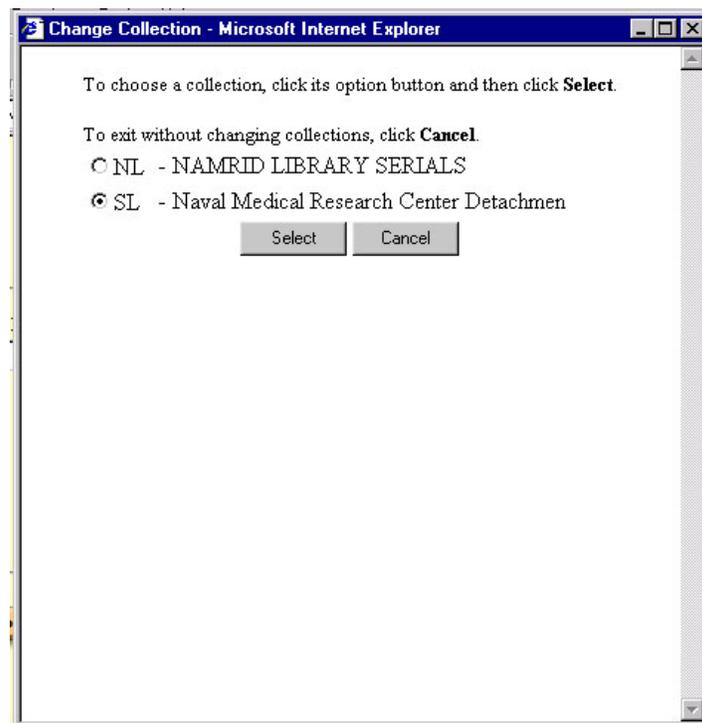

I. Disclaimer

Before accessing the NMRCD on-line library, please read carefully the disclaimer notice that loads when accessing the URL.

After reading and accepting the terms and conditions, please click on the Search Utilities link.

II. Collections

By default, when accessing the on-line library, the active collection is SL. To change from one collection to another, please click on the icon *Change Collection* and select the desired collection. Click Select when ready.

III. Search Options

There are 03 types of search that the system is capable of doing. *Quick search* is a simple query where the system searches for a word or a group of words in all the existing indexes. *Advance search* prepares query-based filters. *Visual search* is a defined-search option based on pre-defined words and phrases.

By default, the system will start with the *Quick Search*.

Quick Search (Default)

QUICK SEARCH
Welcome to Athena

Change Collection Advanced Search Visual Search Start Over Help

Enter a word or phrase and press a search button

Search Author
Title Subject

Access Patron Info

Athena Webserver 4.1 Copyright © 1996-2001
Sagebrush Corporation

After you enter a word or phrase to be searched, press:

Search

The system will look for the word or phrase on all available indexes and show the results in a new window. The most common indexes are:

Title Index:	Includes all titles
Author Index:	Includes all authors
Subject index:	Includes all subjects. A subject is a reference to the books contains.

The results window will show:

The books matching the word or phrases selected, the author, and the availability on the NMRC D library.

(For instance, we have selected 'malaria' as the word to be searched).

The screenshot shows the Athena search results interface. At the top left is the Athena logo. The header text reads: "SL - Naval Medical Research Center Detachmen SEARCH RESULTS Viewing 29 - 32 of 32 for MALARIA". To the right of the header are navigation icons: Previous, Next, Go To, Sort, Go Back, Start Over, and Help. Below the header is a table with the following columns: Title, Author, Call #, and Status. The table lists four search results. Below the table are links for Previous, Next, and Back, and a Return to Top link. At the bottom right, it says "Athena Webserver 4.1 Copyright © 1996-2001 Sagebrush Corporation".

Title	Author	Call #	Status
Health Information for International travel, 2001-2002.		RA 783.5 C45	Out
Medical entomology : a textbook on public health and veterinary problems caused by arthropods /		RA 639.5 M435 2000	Out
International travel and health.		RA 638 C46	In
Health information for international travel, 1999-2000.	US. Centers for Disease Control and Prevention	RA 783.5 C45	In

You can click on the title of the book for detailed information as showed below.

The screenshot shows the Athena full description page for the book "Health Information for International travel, 2001-2002.". The header text reads: "SL - Naval Medical Research Center Detachmen FULL DESCRIPTION Viewing 29 of 32 for MALARIA". To the right of the header are navigation icons: Previous, Next, Go Back, Start Over, and Help. Below the header are three buttons: Show Card, Show Copies, and Show MARC. Below the buttons are two more navigation icons: Look Left and Look Right. The main content area displays the following information: Copies: 2, On loan, due Mar 25/2003; Call: RA 783.5 C45; Title: Health Information for International travel, 2001-2002.; Subject: 1. HEALTH CARE 2. VACCINATION 3. MALARIA RISK; Summary: Reference for health care providers who administer pre-and-pos travel counseling and care; Publisher: PHHF 2001; Phys Desc: 257 p. Below the main content area are links for Previous, Next, and Back, and a Return to Top link. At the bottom right, it says "Athena Webserver 4.1 Copyright © 1996-2001 Sagebrush Corporation".

The links *Previous*, *Next* and *Back* can be used when the list has more than 7 matches. The results window will only show matches 7 by 7.

You can also click on author to see all books from the same author.

Author

The system will look for the word or phrase only on the author index and show the results in a new window.

Title

The system will look for the word or phrase only on the title index and show the results in a new window.

Subject

The system will look for the word or phrase only on the subject index and show the results in a new window.

Advanced Search

To enter to Advanced Search, press click on the following icon:

To will go the window showed bellow.

A screenshot of the Athena Advanced Search web interface. The header includes the Athena logo, the text "SL - Naval Medical Research Center Detachmen ADVANCED SEARCH Welcome to Athena", and navigation icons for "Change Collection", "Quick Search", "Visual Search", "Start Over", and "Help". The main search area contains three input fields, each with a "Browse" button and a dropdown menu set to "All Indexes". Boolean operators "AND" are shown between the fields. On the right side, there are three icons: "Search" (a 3D cube), "Call #" (a red hash symbol), and "Bar Code" (a barcode). At the bottom left, there is a "Format:" label and a dropdown menu set to "All Formats".

In this case, the system will let you choose the index where to look for the word or phrase, and use up to three different set of words or phrases for the search, connected by Boolean options (and, or, not), creating filters.

After the words or phrases are entered, and the indexes selected, click on one of the following icons:

Search

To performed the search with the parameters selected. The results are showed in the results window as seen previously.

Browse

This option will browse a list of all matching words on the indexes, as shown below.

Enter a word or phrase and click **Browse**.

Choose a search term by clicking on it and then clicking **Select**.

To exit without choosing a search term, click **Cancel**.

Keywords from All Indexes:

MALARIA (101)	Select
MALARIA AND OTHER PROTOZOAL INFECTIONS (1)	
MALARIA EN ECUADOR Y PERU Y ESTRATEGIAS ALTERNATIVAS DE CONTROL (1)	Page Up
MALARIA FALCIPARUM (4)	
MALARIA RESEARCH (1)	Page Down
MALARIA RISK (2)	
MALARIA VACCINE (4)	Cancel
MALARIA VACCINE-CONGRESSES (2)	
MALARIA, BABESIOSIS, THEILERIOSIS AND RELATED DISEASES (1)	
MALARIA-AMERICA-CONGRESSES (1)	
MALARIA-ASIA-CONGRESSES (2)	
MALARIA-CHEMOTHERAPY (1)	
MALARIA-CHEMOTHERAPY-ECUADOR (1)	

Attachment A is a list of all available NMRCD serials. Use this list instead of browsing on the NL collection. Newer versions of the system will allow you to browse the NL collection. When they are available, NMRCD will update the on-line library system.

Visual Search

Using *Visual search* you can browse through a number of pre-defined words, shown as icons. To go to *Visual Search*, click on the following icon:

IV. Other Options

Click on this icon if you would like to go to the initial page (*Quick Search*).

Click on this icon if you would like to browse the help index.
